Further Hints in the Art of Managing a Wife Well.

The Letters Get More and More Interesting Every Day.

Love is something that everybody finds easy to suggest in discussing wife manage-ment. The general terms love and kindness enter into many of the communications have been received by THE EVENING WORLD, but few of the writers give some very good suggestions, though, and

THE EVENING WORLD will give a gold double agle to the writer who shows best " How to MANAGE A WIFE." The plan must be con tained in two lundred words, written on one side of the paper, have the toriter's name and address (not necessarily for publication), and be directed to WIFE EDITOR, THE EVENING WORLD, P. O. BOZ 2.354.

Dr. Chauncey M. Depew has rendered

She Must Learn to Obey

Yes, sir, there is no doubt whatever in my mind but what a wife, like every other own thoughts will find a hint in the creature, needs "managing. First, a man must be taught to obey. The man has a duty, must be taught. She should give good ad-ster and he sensible commands, for he must command and she should obey. Tennyson

Man with the head and woman with the heart;
Man with the head and woman with the heart;
Man to command and woman to obey.

I think that expresses the subject under discussion exactly. Of course he must be loving, attentive and true, and not cross, above all things. But do not let your wife have her own way in everything. That is a mistake very often made, and one which frequently proves disastrous to your domestic circle. For would she not expect more and more every day? Use your own judgment in all things, sometimes taking her advice when you think it wise.
